

SETSOLAR is a renewable energy company specializing in the manufacturing of photovoltaic (PV) and solar water heating (SWH) panels.

SETSOLAR produce and distribute various solar and wind energy components to compliment the PV and SWH panels and due to our 20 years of experience in Southern Africa made us the leader in our sector.

SETSOLAR's training courses are practically designed and offer you the best information available in the energy sector today.

There are two options:

- 1) Training at our production plant in Cape Town or
- 2) Training via Skype

The training consists of 4 hours including lunch and refreshments.

This training course will not only offer you information but set the attendee up to start its own business or to improve on its current SWH business.

For bookings and further information please contact our sales department on 021 535 1978.

COURSE LAYOUT
